Reasons For Allowance

The following is an examiner's statement of reasons for allowance:

In view of the applicants' amendment/response filed December 29, 2003 in which it was established that the prior art does not teach *the continuous hydrolytic polymerization process for preparing polyamides or copolyamides comprising polymerizing an aqueous salt mixture of diacids and diamine at between 225 and 250°C and the pressures and times to avoid phase separation, transferring heat into said reaction mixture while reducing pressure of said reaction mixture to between 200 mmHg and atmospheric pressure and further polymerizing said reaction mixture with removal of water resulting in a copolymerized product of the desired molecular weight as instantly claimed; such is allowable.*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
